E. Project Description and Rationale

FCT Program (Feed, Clean and Teach) is an outreach program with the collaboration of Tanom sang Pamatan-on Advocacy. It is an Nutritional, Environmental and Educational preservation among children. This project promotes the values of nature as well as the values of human hood.

F. Target Community/Beneficiaries

This program will be implemented in Brgy. Mambulac, Silay City, Negros Occidental, Philippines and the beneficiaries of this program are the children and residence of Brgy. Mambulac and the street children in Silay City.

G. Community Background

Silay City has a large population and this city also has a large amount of garbage which cannot be disposed of properly and some of the people or families of this community are not able to have sustainable status in life. There are a lot of hungry children in the street and can't study in school because of poverty and that is the goal of the FCT Program. It focuses on the Nutritional, Educational and environmental problems that we are facing and through this program we want to be an inspiration to everybody that even in a simple way, we can help our fellow man with the help and coordination of

Tanom sang Pamatan-on Advocates and the City Officials we can lessen this kind of problem and we can have a better society.

H. Project Duration

This project will be implemented within three months from the 3rd Saturday of January (January 21, 2023) and will end on the 2nd Saturday in the month of March (March 11, 2023) it will be an eight days outreach activity.

II. Project Objectives

A. General Objective

FCT Program (Feed, Clean and Teach) is an outreach program which aims to have Nutritional, Environmental and Educational balance in the community among children. This project promotes the values of nature as well as the values of human hood and this project helps to reduce the problem in the Brgy. Mambulac and in the City of Silay.

B. Specific Objectives

- **Educate:** These aim to give educational support for children and out-of-school individuals. This relates to the goal to help uproot poverty on a larger scale.
- **Inspire and uplift:** Through this community outreach program, these also build avenues where people can thrive with support and *Bayanihan* with others. Being stewards of inspiration and encouragement contribute to building empowered stewards of change.
- **Bring joy:** For volunteers, this outreach program relieves us from a lot of stress. Donors and volunteers feel more at peace and fulfilled knowing they've done their part while recipients feel they're not alone in their journey.
- **Clean Environment:** This program helps to make our society clean and away from any harm that causes bacteria from the trash or garbage.

- **Health and Medical Services** Aside from learning, this program also gives major preventive medical care, consultations, and treatments to ensure that kids are healthy and in full capacity to learn.
